## *Mission Works*

Creating church missional leadership teams that will take responsibility and elaborate plans to systematically reach every person in their territory through relevant outreach ministries

## MissionWorks:

Is an official meeting of the Local Conference or area coordinators for pastors and their leadership teams. Through presentations impressing upon participants the challenge of reaching everyone in their territory, the ministry of all believers, building functional vision driven teams and carefully constructed practical tasks, the teams become the ministry group to implement a missional plan. Mission-focused leadership team is composed of 10-12 from each church or district. The main focus of *MissionWorks* is to help these teams work together around tables to create a strategic plan that is born from each team's particular vision and that is missional in purpose. On returning home the ministry team continues to refine the vision, involve other members and further develop their ministry plan for reaching every person in their territory for God.

**Schedule:** Friday from 7:00 pm to 9:00 pm  
Saturday from 9:00 am to 6:00 pm
